It seems that the man had a bag earlier in the evening and had em-barked in a business in opposition to the colored individual with the pushthe colored individual with the push-cart, and not finding it remunerative proceeded to the depot. Officers Smith and Travers kept their eyes on him and had reason to believe he had filled the bag with iron. They staited after the suspect when he dropped the bag be-tween a freight car and one of the plat-forms. The officers examined the bag and found about fifty nounds of tron in and found about fifty pounds of iron in it and evidences of the previous use to which it had been subjected. The defendant in his statement said he had been in the junk business for many years, and that the circum-tunces surrounding his case could be explained. A colored man had brough the iron to nim, and he refused to purchase it, knowing it belonged to the railroad company; hence he concluded to re-turn the iron where it belonged and ed Usptain Reynolds. NOT ENTITLED TO PRACTICE.-Hon. John F. Rixey recently wrote to the Commissioners of the District of Columbis inclosing a letter from Dr. A. A. R tt nour, of this city, requesting the privilege of following his profession in the District until an opportunity is given him to take the examination prescribed for practicing physicians. r-quest was made upon the ground that Dr. Rittenour is a graduate of the Columbian University School of Medicine and is a licensed physician of the State of Virginia. Dr. William C. Wood-ward, the heath officer, has submitted a report upon the application, in which he says that the licensing of physicians is regulated by the act of Congress of June 3, 1896. He says this law authorizes the issue of licenses to licentiates of States under certain conditions, but only when such States issue lic-uses to licentiates of the District under the same conditions. Dr. Woodward says the State of Virgioia does not so issue licenses and therefore physicians from Virgioia are not entitled to the license
